

Personal Internet/Telephone Consultation Steps:

1. The first step in the consultation process is downloading the initial forms from the website, www.dianncraft.org, and **completing and sending** these forms via email, mail, or fax, with the subject line "Personal Internet/Telephone Consultation". These forms include:
 - Identifying blocked Learning Gates Checklist
 - Math Computation Test
 - Quick Word Recognition Placement Test
 - Informal writing sample...no copying or editing. Just a few sentences.
 - Thoughts About My child form

Please note: I will evaluate these forms to determine if a consultation is necessary for your child. If I find that it isn't, I will still walk you through a plan to take with your child.

2. In order to get a better understanding of your child's learning needs I will need some more documents completed by the parent to further evaluate the child's learning and nutritional needs. For a more complete picture of your child, please send the following completed documents:
 - Parent Questionnaire
 - Any Tests that have been done by school or other specialist (not required)
 - If possible, I would love a picture of the child and mom, so I can "see" who I am working with. Anything informal is great.
3. When you are ready, please **send in the completed forms** and **payment (\$575)**. You may pay via Credit Card (VISA or MasterCard) or Personal Check:
 - Credit Card – Call our secure ordering line (303) 694-0532 and say you are paying for a "Personalized Learning Plan Consultation".
 - Personal Check – Please make payable to "Child Diagnostics, Inc." and mail to my address:
 - **Dianne Craft, 6562 South Cook Court, Littleton, CO 80121**

Please Note: Payment will not be processed until you have been sent your Personalized Learning Plan.

4. After receiving this information, I will carefully study the information about your child and create a **Personalized Learning Plan** (PLP), which includes a Targeted Nutritional Plan.
5. I will mail your Personalized Learning Plan along with teacher-training videos that will help you learn the new teaching strategies you will use with your child.
6. Once you have had a chance to read through your PLP, I will **follow-up with a telephone call** to review the plan and answer any questions you have.
7. I will come alongside you and **partner** with you for the implementation of the Personalized Learning Plan for the entire school year. You may feel free to email me with specific questions throughout the year at no additional charge. If your child is not making the progress you think he should be making, please contact me.

Your Consultation Includes:

1. Personalized Learning Plan and Targeted Nutritional Plan
2. Many teaching videos showing how to do the brain exercises and how to tutor your child using right brain strategies.
3. 25% discount on all additional teaching products from our website
4. **Most importantly, free email follow-up assistance as you work your Personalized Learning Plan for one year.**
